PLAN 2045 **Maintaining the Vision for a Sustainable Region**

NYMTC's new draft Plan lays out a long-range framework for maintaining and improving the region's transportation system (i.e. roads, bridges, mass transit facilities, bicycle and pedestrian networks and goods movement). *Plan 2045* is a required step to bringing federal transportation dollars into the region.

CONGESTION MANAGEMENT **The 2017 Congestion Management Process (CMP) Status Report**

Accompanying *Plan 2045* is the draft CMP Status Report, which forecasts future traffic congestion and specific details of congestion at the county/borough level.

TRANSPORTATION CONFORMITY **Transportation Conformity Determination**

The Transportation Conformity Determination quantitatively forecasts future mobile source emissions and our environmental footprint in response to federally-mandated air quality standards.
