

Village of Lindenhurst

NY Forward Small Projects Fund

The NY Forward program's purpose is to invigorate and enliven downtowns in New York's smaller and rural communities—the type of downtowns found in villages, hamlets and other small, neighborhood-scale municipal centers. NY Forward builds on the success of the Downtown Revitalization Initiative (DRI)

Small Projects Grant Fund

The Village was awarded \$300,000. The Village has a goal of creating a healthy, thriving downtown that is attractive for businesses, visitors and residents alike. Lindenhurst aims to build on these efforts by creating new multi-modal travel choices in and around downtown, transforming underutilized properties into commercial space and mixed-use developments and investing in housing and community amenities.

How It Works

Who is eligible?

Business owners, non-profits, and commercial property owners within the designated boundaries.

What you will need:

Complete the grant application form before the deadline: **August 27, 2025**. Applications are available online at LindenhurstNYF.com. The applicant must provide a 50% (25% for non-profits) match toward the total cost of their project.
