

The 2020 Complete Streets Virtual Summit

“Healthy Citizens, Healthy Main Streets”

June 25th & 26th, 2020

9:00 AM to 10:30 AM (each day)

Presented by:

Complete Streets can help to encourage a healthy and active lifestyle. Since the onset of the Coronavirus, people have been using our streets for walking and biking more than ever. In addition, our Main Streets need to allow space for outdoor dining as well as room for shoppers to safely social distance. How can we ensure our streets can fulfill these roles and support public health?

Now that we are using our streets differently than before, how do we keep it going and how do we make it easier?

Day 1: Complete Streets and Public Health
