the
Date
September
3rd,
2020**

The 2020 Long Island Smart Growth Awards will continue to celebrate the people and projects advancing our downtowns. However, due to the ongoing coronavirus shutdown, we are holding the event in a virtual form. Projects honored are already contributing to the needed economic recovery of our local communities.

Awards presentations will be delivered to the honorees on a succession of days at the project location. The delivery of awards will culminate in the virtual live program.

Please join us for another year of celebrating the work of our honorees that lift up our Main Streets and local neighborhoods.
