

Smart Growth

SATURDAY

May 3, 11:00 am

Vision Long Island invites you to join us in local downtowns for the first annual Smart Growth Saturday! Visit real places with projects both completed and under construction, showing the progress of renewed Main Streets across Long Island. We have chosen these six communities for this first year as they have won multiple Smart Growth Awards and have a lot to show. We recognize that there are twenty or more other downtowns across Long Island doing great work and we encourage you to visit them as well.

Tours will gather at 11 am for an initial presentation and will leave before 11:30. Tours are free, but RSVPs are required as space is limited. RSVP to 631-261-0242 or ea@visionlongisland.org
